Howdy, Stranger!

I've been asked for copies of the Crowford/ Eggs-and-Sausage FBI records I got from the FBI and cannot find them.

I do remember sending you copies of them for Wayne.

So, I'm hoping that he and/or you can please let me have xeroxes.

Not much new here. I suppose you know that Morton Downey Jr has developed an interest in Jimmy and had several shows (which I did not look at).

There are indications of other such interest but as yet nothing has come of it. At least not that I know of.

Hope as is well with you (pl).

Thanks and best wishes,

Harold
